

REFLECTIVE DISCUSSION – 50 POINTS

Throughout the semester there will be five group reflective discussions on the class Wiki pertaining to trends and issues in technology education. You will be notified in class when each discussion should take place.

Format:

1. Listen to the video or audio podcast linked to the “Reflective Discussion” page of our wiki.
2. Locate an additional online resource pertaining to the topic of the discussion.
3. Respond to & reflect upon the original podcast *and comment on your additional online resource as well* (include direct link). Your first post needs to be completed by Thursday (P61) or Saturday (P60) evening. This will allow your peers an opportunity to read each post and reply accordingly.
4. Reply to at least 3 of your peers’ original posts.

Grading Criteria

| | Points Possible Per post |
|--|-----------------------------|
| Original post is completed by Saturday evening | 2 |
| Original post includes discussion of content from podcast | 2 |
| Original post includes a direct link to & discussion of an additional online source on the topic | 2 |
| Replies to at least 3 peers’ original posts | 2 |
| Original posts & responses are coherent, thoughtful, and are free of errors | 2 |
| Total points | 10 * 5 posts = 50 |
